QUALITY
POLICY

REV 04

PAGE 1 of 1

As Managing Director of the Carey Group plc I am personally committed to providing a quality service to all of our customers and fully meeting their requirements and expectations. To achieve this I require support from the Board, senior managers, site personnel and contractors through their own Quality Management Systems.

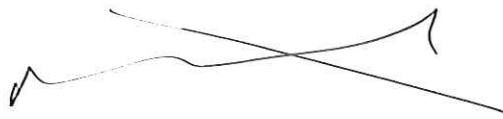

Our work shall be carried out in a cost effective and timely manner to the highest professional standards, ensuring conformity to customer, regulatory and legislative requirements.

We are dedicated to the continual improvement of our overall performance in all facets of our operations and place great emphasis on expertise, capability, reliability and safety in achieving high standards of quality.

To achieve this we shall:-

- Support this policy by the implementation and maintenance of an accredited Quality Management System.
- Have top level management commitment that ensures that quality objectives are communicated, understood and implemented at all levels.
- Continue to review performance and that of our contractors
- Prepare, implement and monitor management plans for improving performance.
- Monitor the performance of activities against this Quality Policy and supporting procedures
- Seek to continually improve company performance by setting of achievable and realistic objectives and targets
- Assist suppliers and subcontractors in developing and improving their own Quality Management Systems.
- Provide adequate resources including competent personnel dedicated to the delivery of a Quality product/service

This policy has been produced in compliance with ISO 9001:2008 and to help demonstrate commitment to achieving our quality objectives, it will be periodically reviewed, amended, re-issued and brought to the attention of all employees and other parties as appropriate.

DENIS DEACY
MANAGING DIRECTOR

Date: 16th June 2010
